Flickrkart Internet LLP
Innovate • Build • Grow

AI-FIRST SOFTWARE STUDIO

Build smarter. Move faster.

AI automation, custom software and digital growth. From New Delhi, for businesses across India.

SERVICES

What we build

AI & Machine Learning
Voice agents, WhatsApp, document intelligence and MCP integrations.

Custom Software Development
CRM, ERP, portals, billing, ecommerce and connected workflows.

Mobile App Development
Android, iOS and web apps for customers and field teams.

Performance Marketing
SEO, AEO, digital campaigns and lead attribution.

Product Design
Research, prototypes and accessible, responsive design systems.

Cloud Development
Cloud architecture, deployment, scaling, backup and recovery.

DevOps
CI/CD, release checks, rollback plans and production monitoring.

Data & Analytics
Data pipelines, reporting dashboards and business intelligence.

DELIVERY & PARTNERSHIP

From brief to launch.

Clear scope, reviewable milestones and a practical handover plan.

DELIVERY PROCESS

Discover	Map goals, users, systems and the first workflow worth improving.
Scope & design	Agree on features, estimate, prototype and acceptance criteria.
Build & validate	Review milestones and test the work with the people using it.
Launch & support	Deploy, train your team and hand over documentation.

Plan a focused first release

We prioritise what users need at launch, then review the integrations, testing and support your team needs. After discovery, we share a tailored quote and delivery plan.

AI AUTOMATION IN PRACTICE

An incoming call can become a consented summary, a WhatsApp follow-up and a CRM task assigned to a person. The Model Context Protocol (MCP) can connect an assistant to approved tools with scoped access and human approval for sensitive steps.

AFFILIATE PROGRAM

Earn 25% on eligible project referrals.

Individuals, companies and agencies receive a shareable link and can track attributed enquiries, commissions and recorded payouts in their dashboard.
